

MA Ltd Guidelines during Coronavirus outbreak

The recommendations below apply to all anglers intending to fish at Harlaw and Threipmuir Reservoirs

- Do not fish if feeling unwell due to symptoms that may be related to COVID 19 or if you have been confirmed positive for the virus in the last 7 days and still have symptoms.
- Do not fish if you have been tested for COVID 19 and awaiting a test result.
- Do not fish if anyone in your household is self-isolating due to suspected COVID 19 infection or is awaiting a test result for COVID 19.
- Strictly observe the Government guidelines on social distancing and personal hygiene.
- Keep a minimum distance of 5 metres from other anglers at all times whilst fishing.
- If in contact with other anglers or members of the public keep at least 2 metres apart, and where possible use a face mask.
- Drive to the fishery alone, unless with another member of family who lives with you and does not have symptoms of the virus.
- Wearing of a face mask while walking to or from your car to Harlaw or Threipmuir or when in contact with others, is recommended.
- Gates may require to be manually opened, therefore to avoid contamination, clean your hands thoroughly with alcohol-based handwash immediately after contact.
- Do not touch your nose, face or eyes before cleaning hands.
- Whilst protecting yourself, be mindful of the possibility of contaminating others.
- Any new Government guidelines that exceed the recommendations will apply.
