

Members, Season and Day Permits

Catch Returns 2021

Sincere thanks to the members, season and day permit holders who have taken the time to forward their catch return to Ronnie.

Your catch return will ensure that MA Ltd has an accurate record of fish caught and also fish returned. The information from the catch return will be the benchmark for restocking and will help to ensure a good head of fish in both Harlaw and Threipmuir Reservoirs. Catch returns are mandatory at most Scottish fisheries.

Please continue to send your catch return when you have fished at Harlaw or Threipmuir either daily, which is preferred, or at latest weekly. The permit return only takes a few minutes.

Details required:

Location - Harlaw or Threipmuir

Date, fish returned, fish taken/killed stating Rainbow or Brown Trout.

Contact email address for Ronnie is:

catchreturn@mallenyangling.com

Many thanks for your continued assistance.
